

Teesside University

Who are we?

Teesside University was officially opened as *Constantine Technical College* in **1930**, before becoming a polytechnic in 1969, and finally granted university status in 1992.

Two campuses **Middlesbrough** and **London**

➤ **Around 20,000 – 25,000 students**

➤ **Over 70 nationalities**

➤ **Around 33% International students**

Our Vision

Teesside will be a leading University with an international reputation for **academic excellence** that provides an **outstanding student and learning experience** underpinned by **research, enterprise and the professions**.

Our Mission

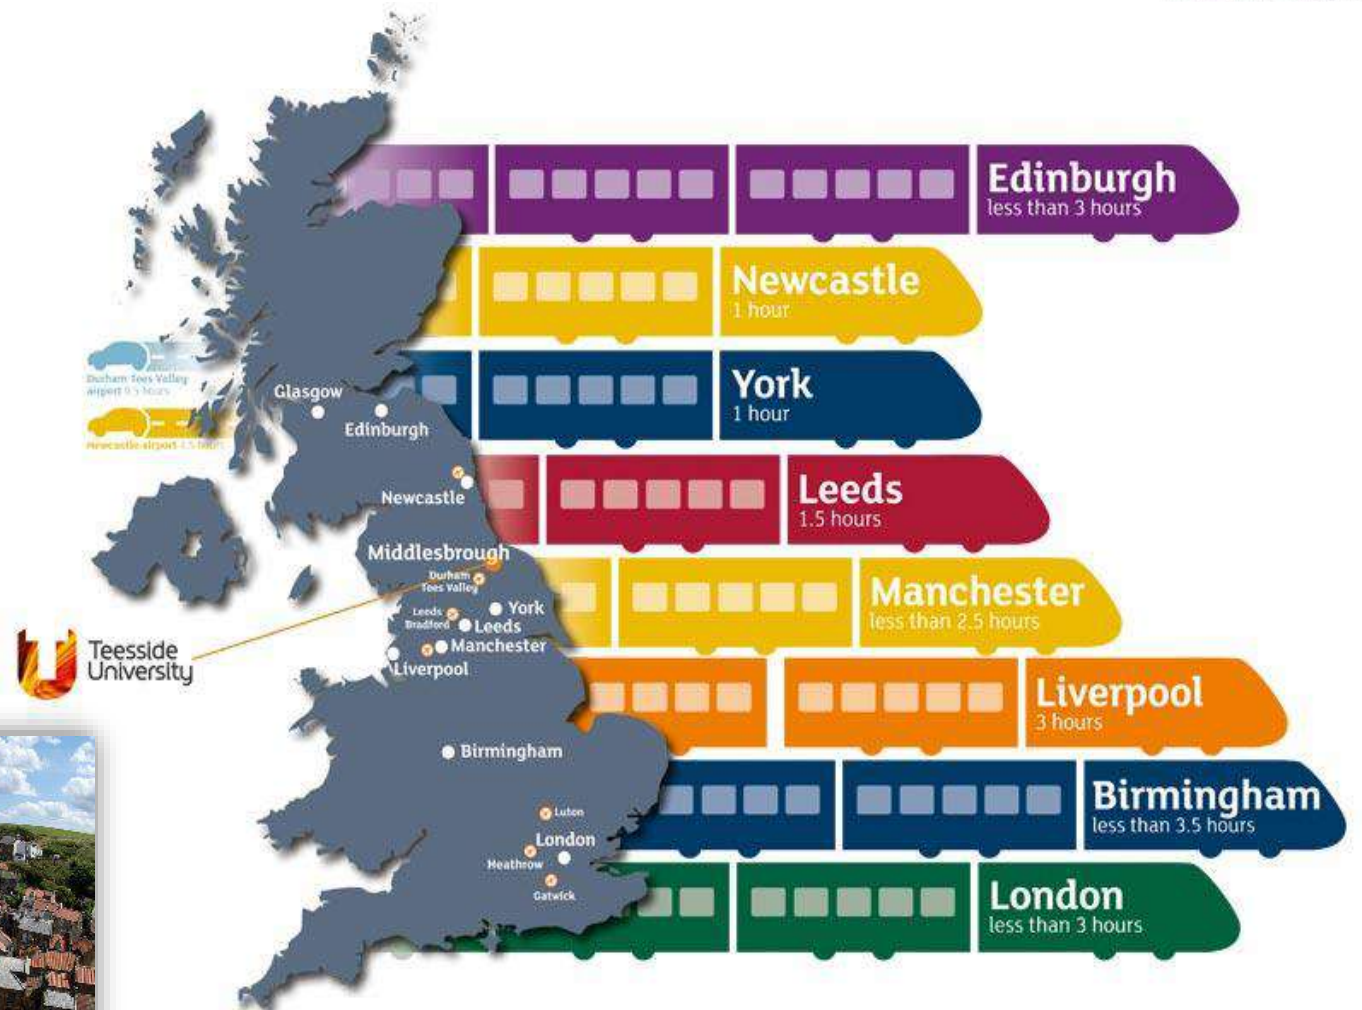

Teesside University generates and applies knowledge that contributes to the **economic, social and cultural success** of students, partners and the communities we serve.

Through education enriched by research, innovation, and engagement with business and the professions, **we transform lives and economies**.

*data for student numbers has been prepared based on the 2024/25 HESA student record

Where are we?

- Our main campus is in the heart of **Middlesbrough**
- 10-minute walk to shops, entertainment, restaurants and train/bus stations
- 30 minutes from **Teesside International Airport** and 1 hour from **Newcastle International Airport**

Global Summer School

Learn something new and have an experience that will stay with you forever!

Our Summer School runs for 4 weeks

Monday 6th July 2026 – Friday 31st July 2026

What to expect

Duration: 4 weeks

Programme Start: Monday, 6th July 2026

Programme End: Friday, 31st July 2026

Contact Hours

10 contact hours per week

Topics

Business, Computing, Cyber Security, Games, Animation, Design,
Engineering, Politics and Psychology

****all subject to availability*

What we expect from you!

- Be keen to **engage** with tutors and other students!
- **Attend** ALL classes
- **Embrace** other backgrounds and cultures
- Meet our English Language requirement

The Content

Programme delivery (more details in the following slides):

Module 1

Research Skills Workshops

2x 2hr per week

Module 2

Research Project – Desk Based Group work

You will be allocated a **programme** specific supervisor

Put into practice what you have learnt during the workshops!

2x 1h supervision per week + independent study

Module 3

School Academic Activities - relevant to your field

3h per week + independent study

Module 4 (optional)

Extra academic activities, such as site visits.

Finale!

Present your presentation!

Business

Work on a **business research project** exploring topics like **entrepreneurship, marketing strategies, or sustainable business practices**. You might analyse **case studies, review industry trends, or examine real-world business challenges**.

Your project could focus on areas such as **digital marketing, leadership in organisations, or the impact of global markets**, helping you develop key research and analytical skills.

- Teesside Marketing Clinic – student-led consultancy service
- Social learning spaces and digital pods
- Industry input - leading collaborations with national and international organisations
- United Nations' PRME initiative – a proud signatory of the Principles for Responsible Management Education (PRME) initiative

The Resources

Gives you access to outstanding facilities, such as:

Design

- Dedicated print room with bookbinding
 - Media Centre – equipment loans
 - Soundproof recording studios
 - Green-screen production studios
 - Mac and PC labs
- Workshop for wood, 3D printing, metalworking and welding
- Dark rooms to work with analogue photography - *one of the only art programmes in the UK with this facility!*

The Facilities!

Engineering

Work on an **engineering research project** exploring topics like **sustainable design, advanced manufacturing, or smart technologies**. You might analyse case studies, **review industry developments, or explore innovative engineering solutions**.

Your project could focus on areas such as **renewable energy systems, automation in manufacturing, or the future of transport**, helping you develop key research and analytical skills.

Engineering laboratories include designated areas for a many engineering fields, such as:

- **Flight Simulation** Laboratory
- **Thermofluids** Laboratory
- Civil Engineering and Built Environment Laboratory
- Electronics and Communications Laboratory
- **Power Engineering** Laboratory
- **Specialist pilot plant facilities** for chemical and mechanical engineering

The Facilities!

Games / Animation

Dedicated facilities are provided for animation, computer science, creative games and games programming, digital media and web, mobile development, networks, video editing and digital pre/post-production.

You might create your own short movie clip or game!

The Facilities!

Computing / Cyber Security

Gain hands-on experience in one of the fastest growing fields in technology. Explore topics whilst enhancing your computer skills through practical workshops and a project!

State-of-the-art facilities: learn in industry-standard computing labs with specialist equipment used to undertake development projects and build innovative prototypes.

The **Digital Life Building** is our flagship centre for digital innovation, bringing together state-of-the-art facilities, cutting-edge research and real-world collaboration.

The Facilities!

Politics

Work on a **politics research project** exploring topics like **international relations**, **political ideologies**, or **global challenges**. You might analyse **policy documents**, review case studies, or examine **political trends**. Your project could focus on areas such as the **impact of climate policies**, the **role of international organisations**, or the **influence of social movements**, helping you develop key research and analytical skills.

Gain the skills, experience and knowledge to understand and influence the world around you. Politics is an incredibly diverse and varied subject. Our resources help students to:

- Undertake participatory and active learning
- Explore global politics that reflect the issues of the day
- Access political archives: **The Green Party Archive**, **The Fascism Collection**, and **The Tom Sawyer Archive** and much more!

Psychology

Work on a **psychology research project** exploring topics like **mental health, cognitive processes, or social behaviour**.
Using desk-based methods, you might **analyse existing data, review psychological studies, or explore real-world case studies**.
Your project could focus on areas such as the **impact of stress on memory, decision-making processes, or the effects of digital technology on well-being**, helping you develop key research and analytical skills.

Psychology at Teesside gives you access to outstanding facilities, such as:

- Eye-trackers
- EEG and Near-infrared Spectroscopy (NIRS)
- Specialist interviewing labs
